Operaciones Aritméticas (multiplicación y división)

Multiplicación Entera

Multiplicación Entera de 23 * 13 = 299

Decimal:

 $23x13 = 23x3x10^{0} + 23x1x10^{1} = 69 + 230 = 299$

Binario:

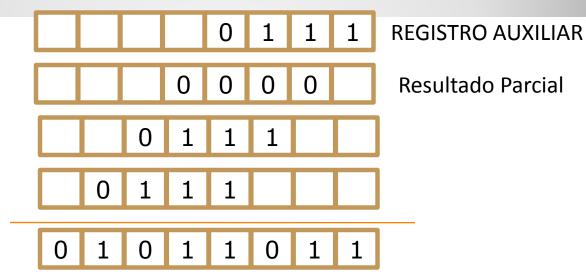

```
00010111 x 1101 = 00010111 x 1 x 2^0 + 00010111 x 0 x 2^1 + 00010111 x 1 x 2^2 + 00010111 x 1 x 2^3 = 00010111 + 00000000 + 01011100 + 10111000 = 0001 0010 1011
```

MULTIPLICANDO

REGISTRO AUXILIAR

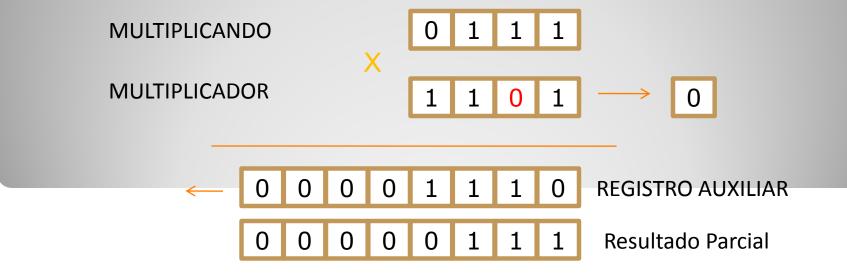

Resultado Parcial

Pongo multiplicando en registro auxiliar

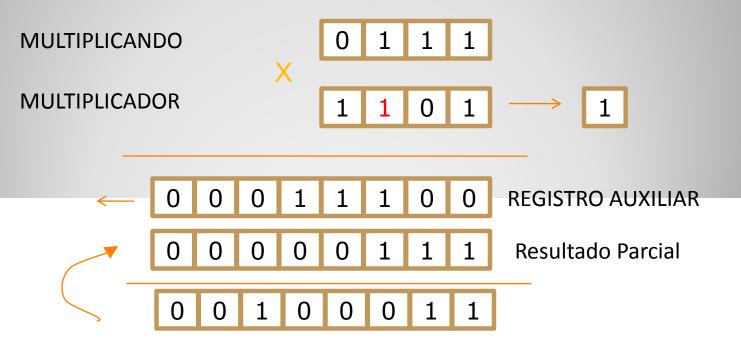

Multiplicación Entera de 7 * 13

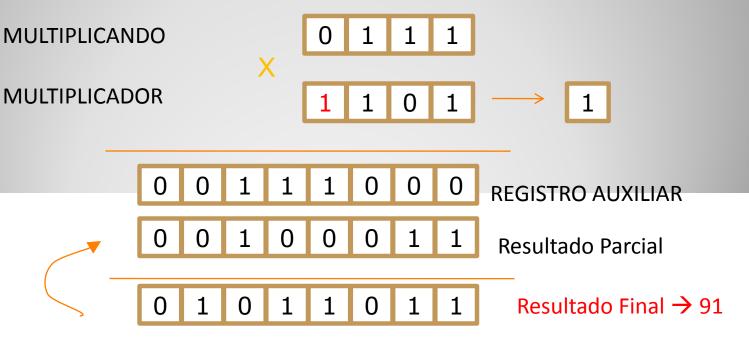

Es 0 ? → desplazo a la izquierda registro auxiliar

Es 0 ? → desplazo a la izquierda registro auxiliar

Es 0 ? → desplazo a la izquierda registro auxiliar

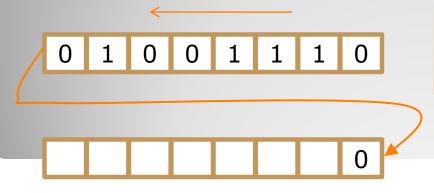

Es 0 ? → pongo 0 en la suma parcial y desplazo a la izquierda

División Entera de 39 / 6

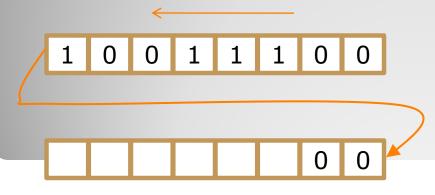

REGISTRO AUXILIAR

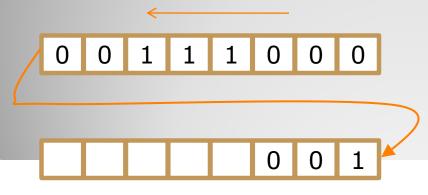

- \rightarrow SI \rightarrow le resta el divisor
- → NO sigue desplazando dividendo
